COMPANY PROFILE

*“Say what we may of the inadequacy of translation, yet the work is and will always be one of the weightiest and worthiest undertakings in the general concerns of the world.”*

*(Johann Wolfgang v. Goethe)*

From the  
Medical

Valley in the heart of the European Metropolitan Region of Nuremberg (EMRN), First-Trans-Late (FTL) has been serving its customers and clients in Germany and abroad for about 10 years now by offering comprehensive language services—

up to the  
Engineering.

For, nowadays, translating is no longer a matter of linguistic abilities alone.

It takes expert knowledge that goes far beyond mere language skills, an in-depth expertise that FTL has gained during many years of professional experience – a know-how that you as client can fully benefit from.

And thus, the range of services offered by FTL includes not only translations, but covers also many related services—always in keeping with its corporate statement:

**High-Quality Translation Services & more  
for Corporate Clients & Private Customers**
